PERSONAL PROJECTS

Personal portfolio responsive website. (11/2022 - 12/2022)
- This is a responsive website that I built using HTML, CSS, and basic JavaScript. The website features a clean and modern design that highlights my personal brand and showcases my skills and projects.

Conversational Health-Care Voice chatbot.
 (01/2023 - 06/2023)
- The project involves developing a conversational AI Voice chatbot using Rasa and it's libraries to diagonise health-related issues by taking the user symptoms.
